Pages: One Hundred Twelve,

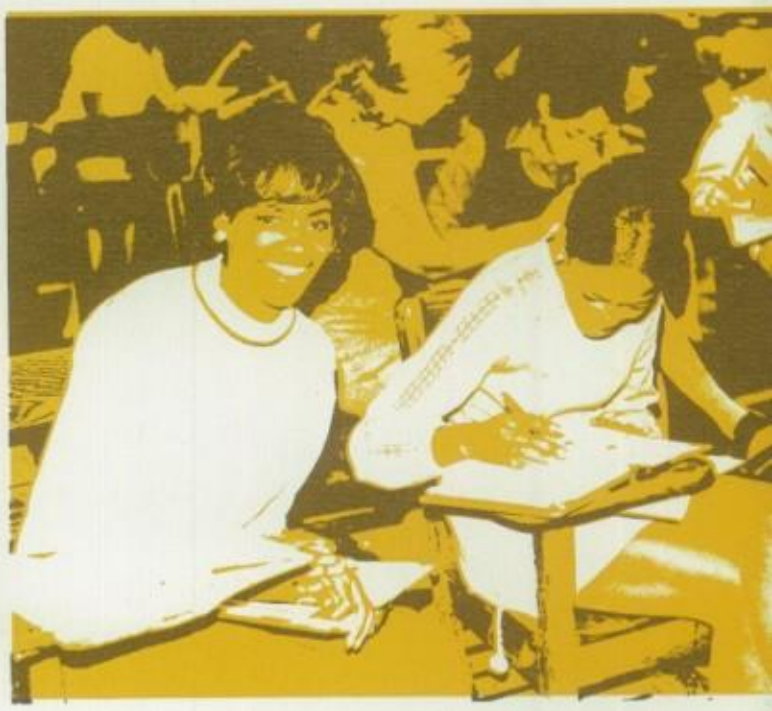
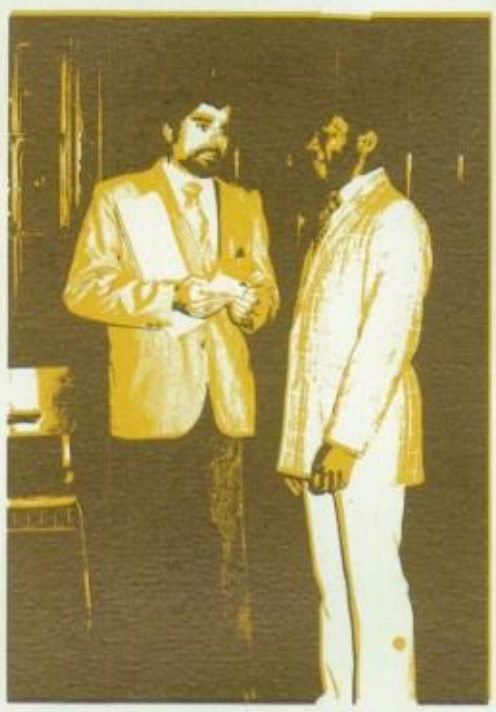
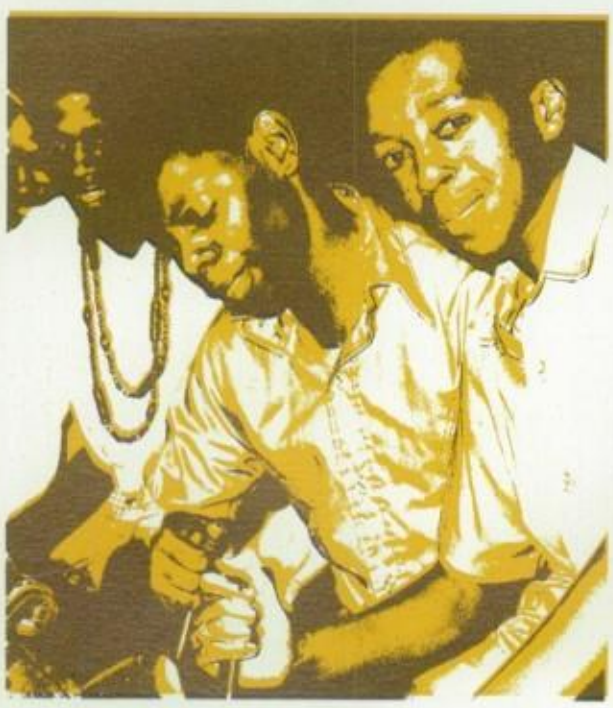
Pages: One Hundred Thirty Six,
One Hundred Thirty Seven . . .
. . . The Powers.

I reached out to find My indentity In the mass of student Numbers . . .



A time for discovering
But every moment so precious
So short . . .





As I walked my mind began to wander
It thought about time—how it
runs so fast and will not stop
for anyone
For it belongs to the sun and
only the sun will determine
Its destination . . .

For we are merely the recipients of time
We are growing up, And everyday the
world has something new in
store for us, If we
would only take
the
time
to
find
it . . .

TIME
TIME
TIME

Yet even in these times
it is not good that the student
should be alone
Man is a social animal, so we
continue
Together.

Principal's Message

One of the indictments of our civilization is that notable technological advances of our era have far outdistanced any advances we have made in the area of human relations. We have men going to the moon, and men going, as they have always gone, to war. We have universal education and problems of internal dissension. We have affluence, and poverty. It has become increasingly clear that unless we can effect changes in the attitudes and concerns of men that our life on this planet is in imminent danger of extinction.

"The Times Are Changing", the theme of the 1971 Scroll, is a call to action for all of you. Your commitment to making this a better world to live in will demand much of you. As those in the vanguard of change you will meet the resistance of those who are comfortable with the status quo. Some of you will have to control your impatience and realize that beneficial change can not be made overnight.

My hope for you is that you will accept this challenge, a challenge that will be difficult, often discouraging—and predictably exciting. The qualities of heart and mind that you bring to this struggle will insure the rewards and satisfactions that can enrich your life and the lives of those who share your world.

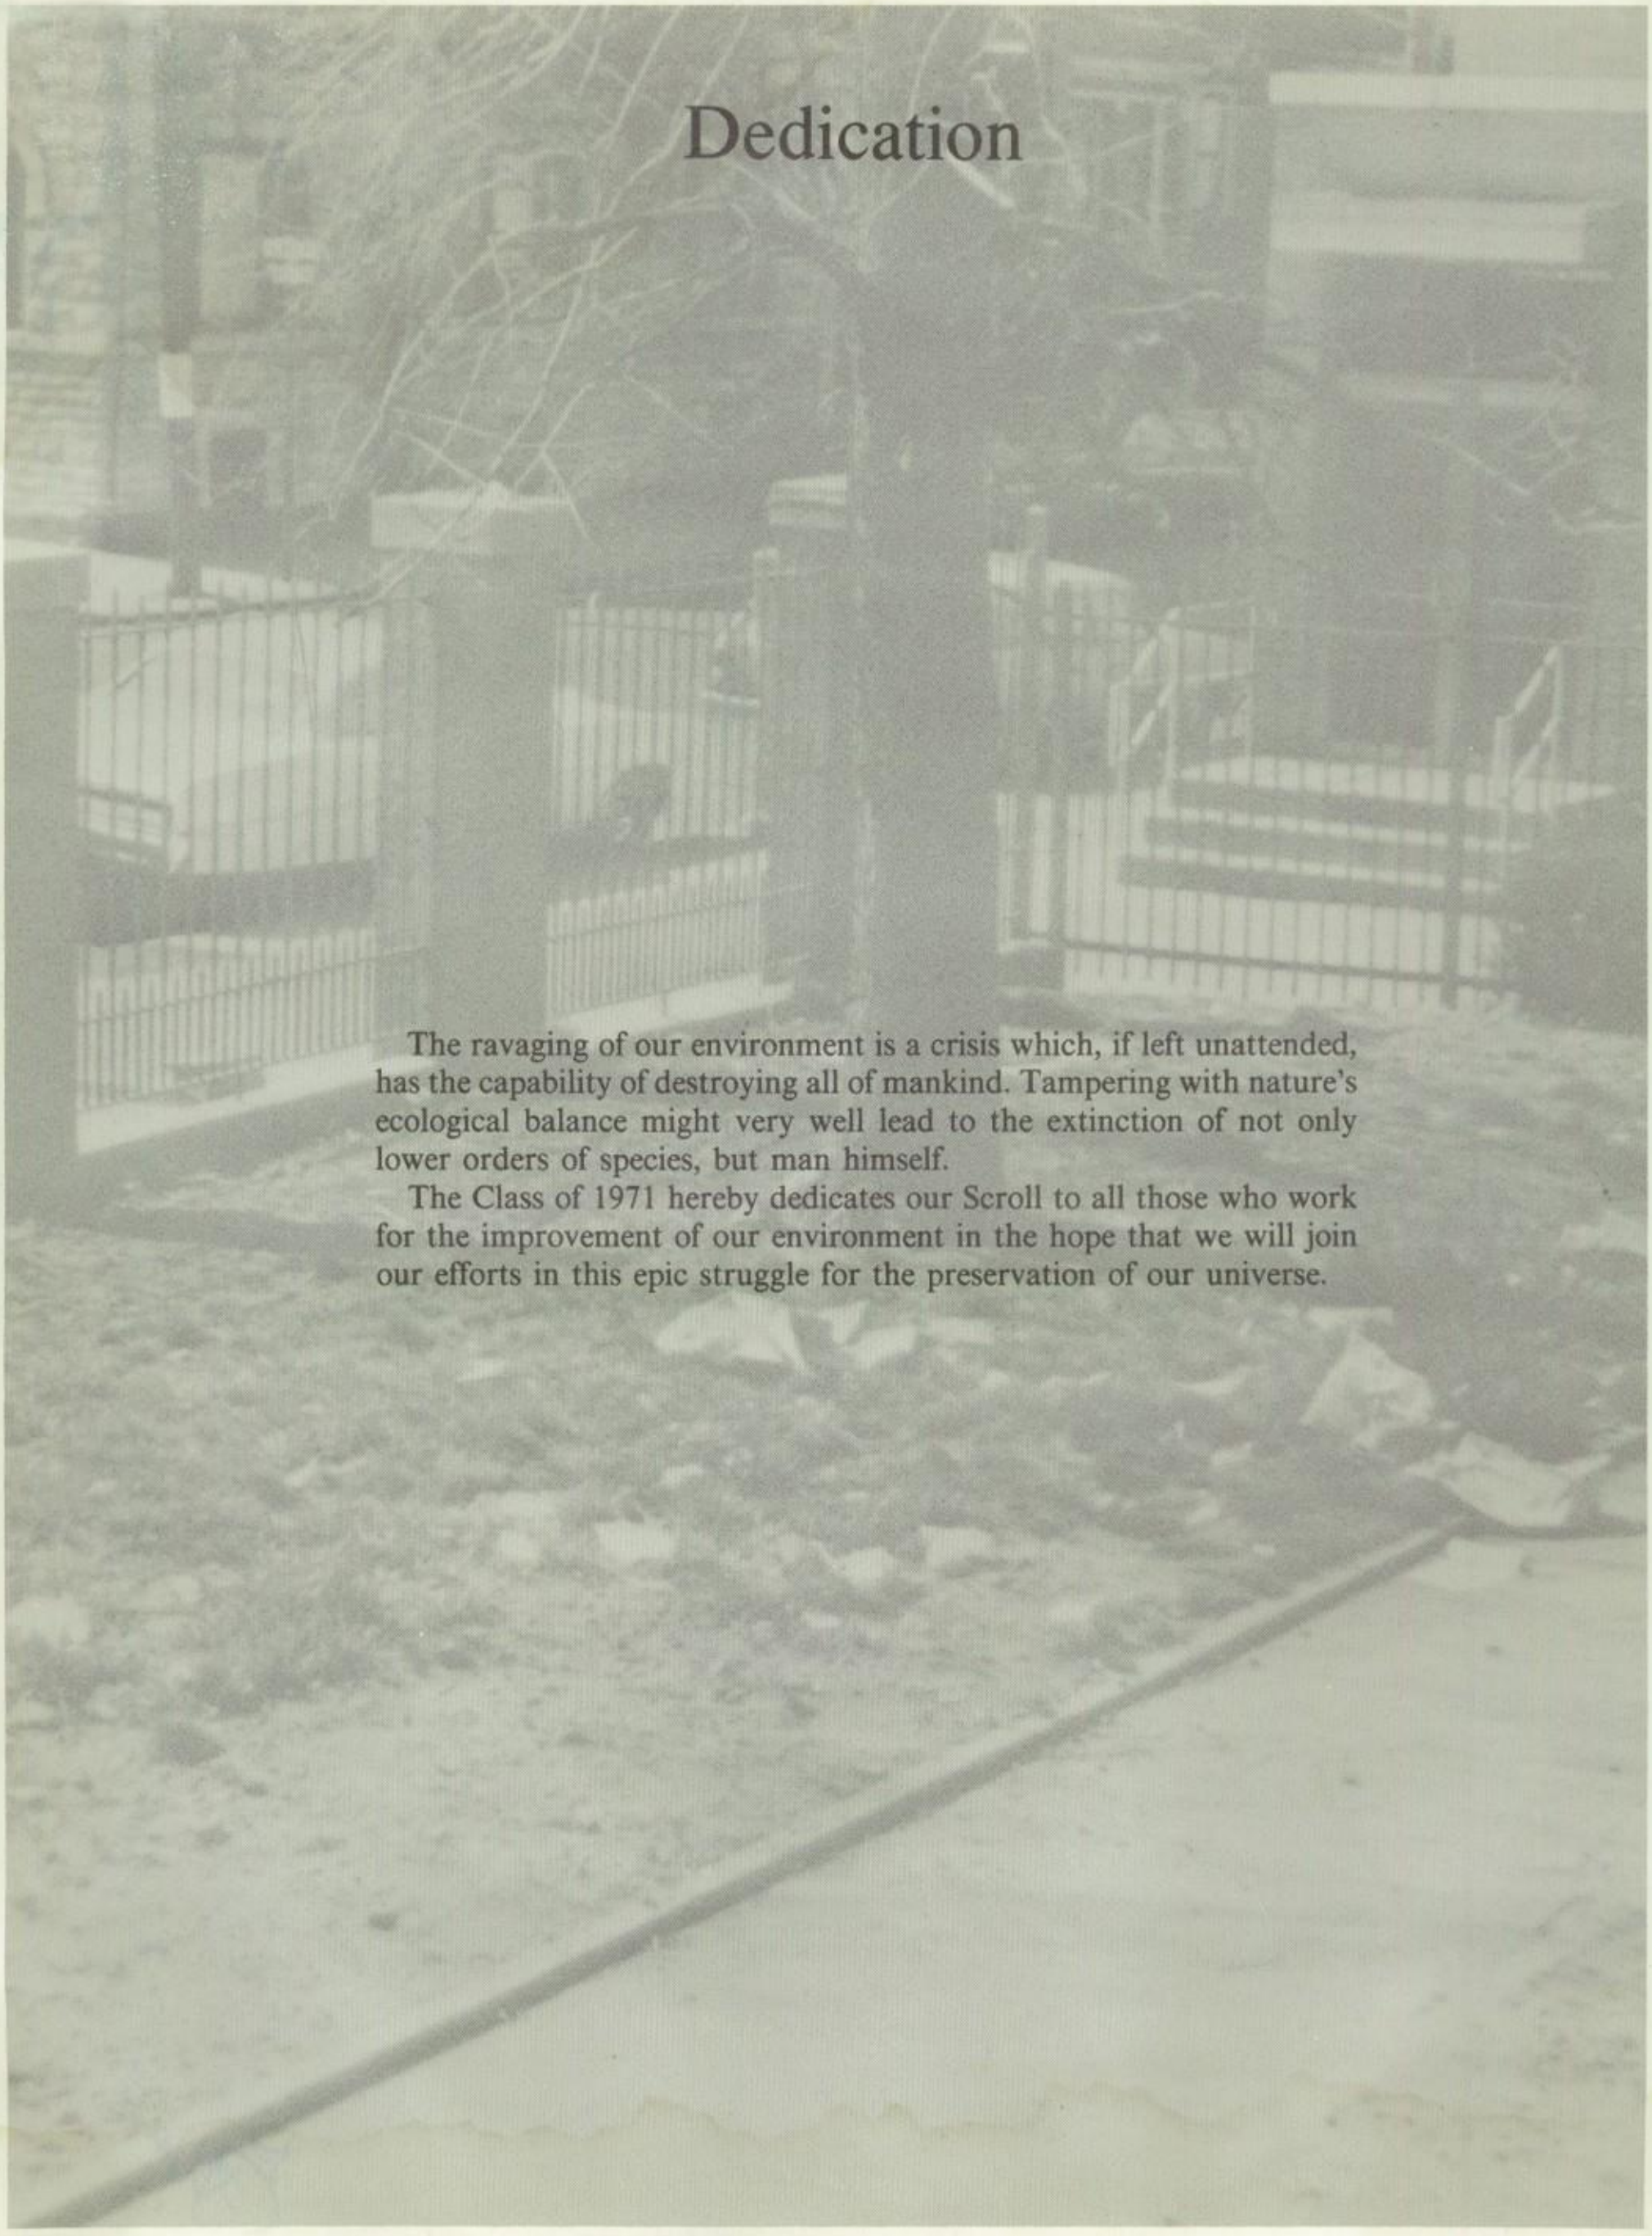
Dedication

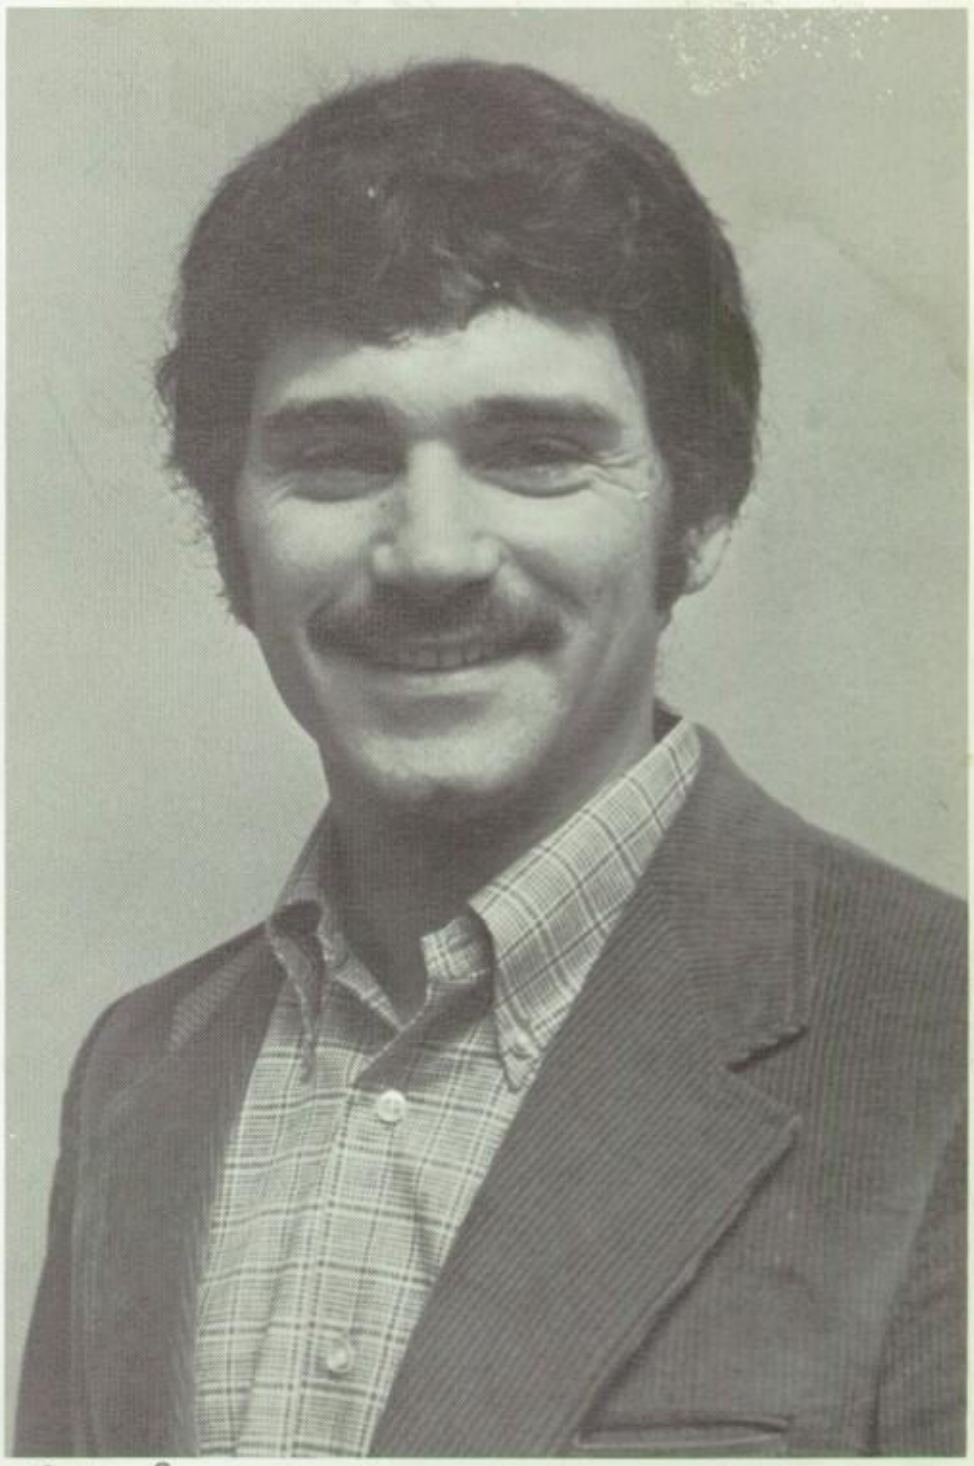


The ravaging of our environment is a crisis which, if left unattended, has the capability of destroying all of mankind. Tampering with nature's ecological balance might very well lead to the extinction of not only lower orders of species, but man himself.

The Class of 1971 hereby dedicates our Scroll to all those who work for the improvement of our environment in the hope that we will join our efforts in this epic struggle for the preservation of our universe.

In Appreciation

Amelia Spinelli



Vincent Russo

Best of Luck and
May you have all the happiness you desire.
Keep the faith - the peace!
Vincent Russo

We, the Class of 1971, would like to express our appreciation both to Amelia Spinelli, Scroll Advisor, and to Vincent Russo, Senior Class Advisor, for their tireless efforts and devotion in making our Scroll and our Senior Year segments of our lives we can always look back on with pride. We thank them also for being more than advisors:for being friends whose patience and kindness were limitless. They truly made Senior Year for all of us a memorable one.

We, the Snyder graduates of 1971, wish to extend our sincere thanks to the faculty and administration. Our years at Snyder High School have been enriched by their dedication anddiligence in our behalf. We hope that in the future we shall be able by our productive and useful lives to justify their efforts and their faith in us.

In the library I didn't
See the books anymore.
Instead, I saw a library
Filled with love,
Love of the minds to read the words
And love of the words to
Inform the minds.

As I walked past the classroom,
I didn't see teachers anymore,
Nor did I see students.
Instead, I saw a person who had
Acquired a quantity of knowledge and was sharing
It with those who hadn't found it yet.

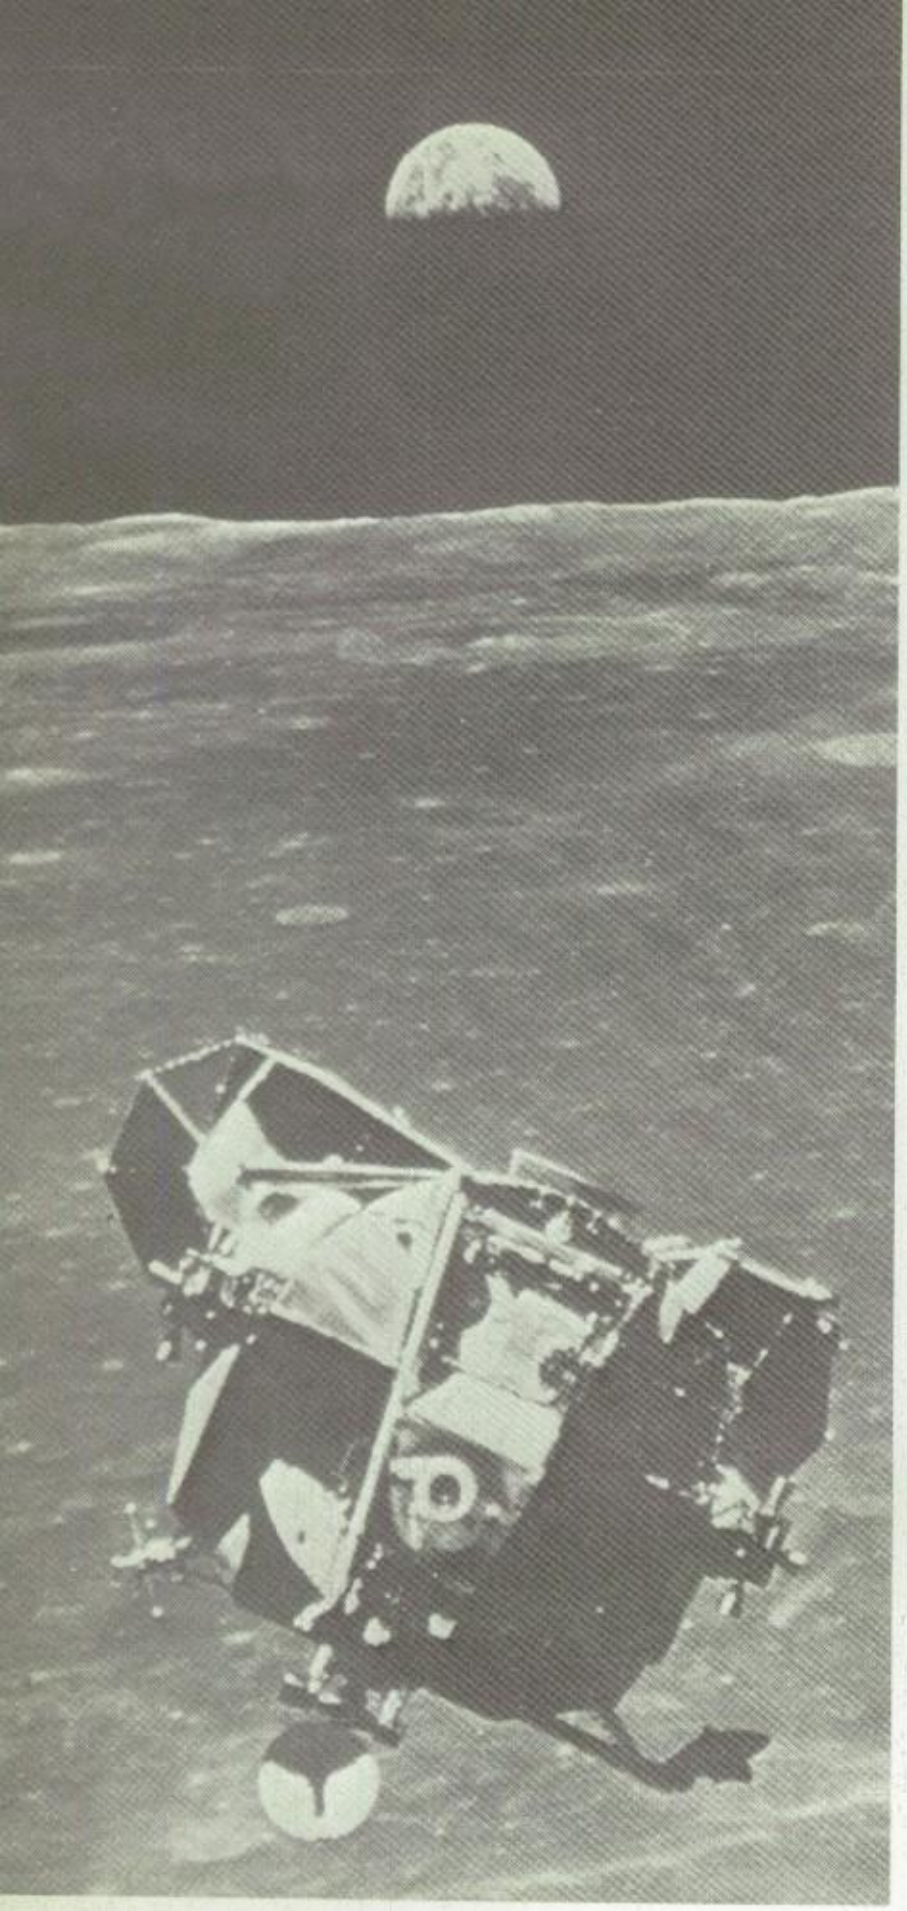
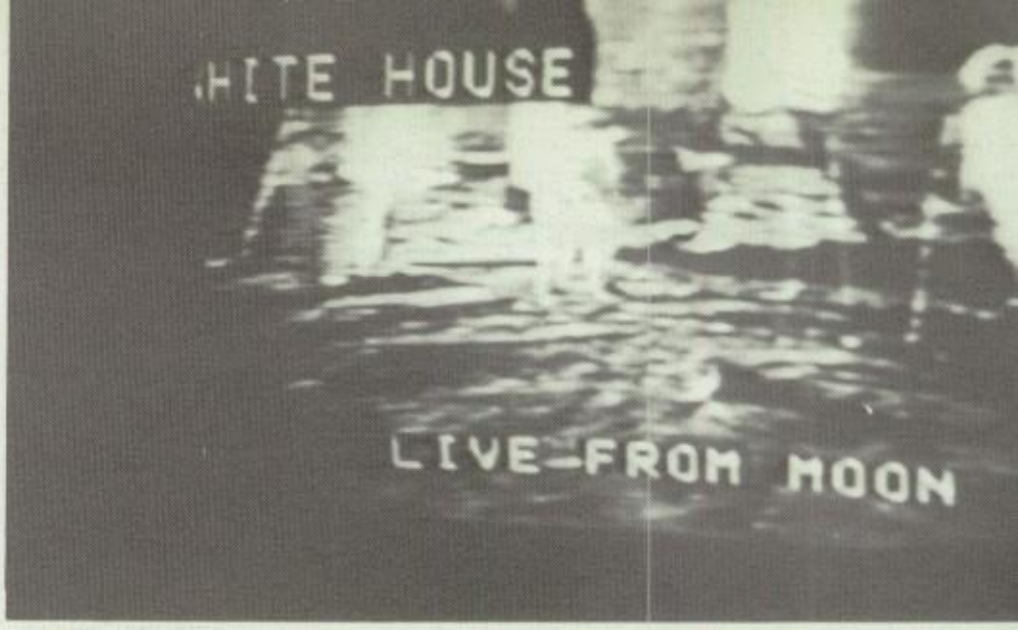
Blood Sweat and Tears

Blood Sweat and Tears

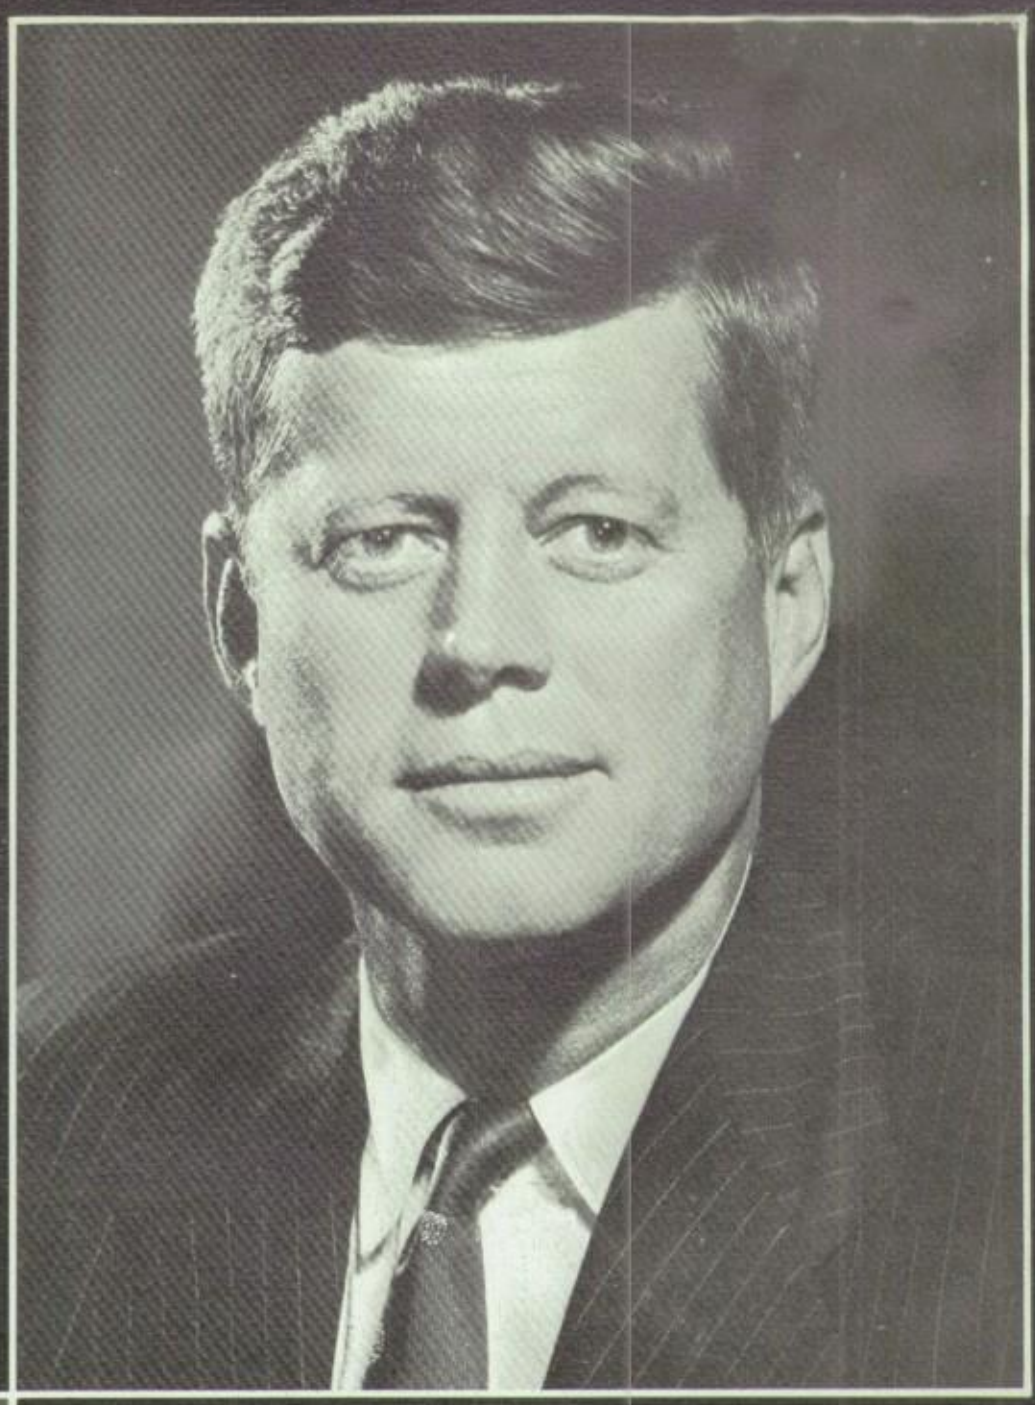


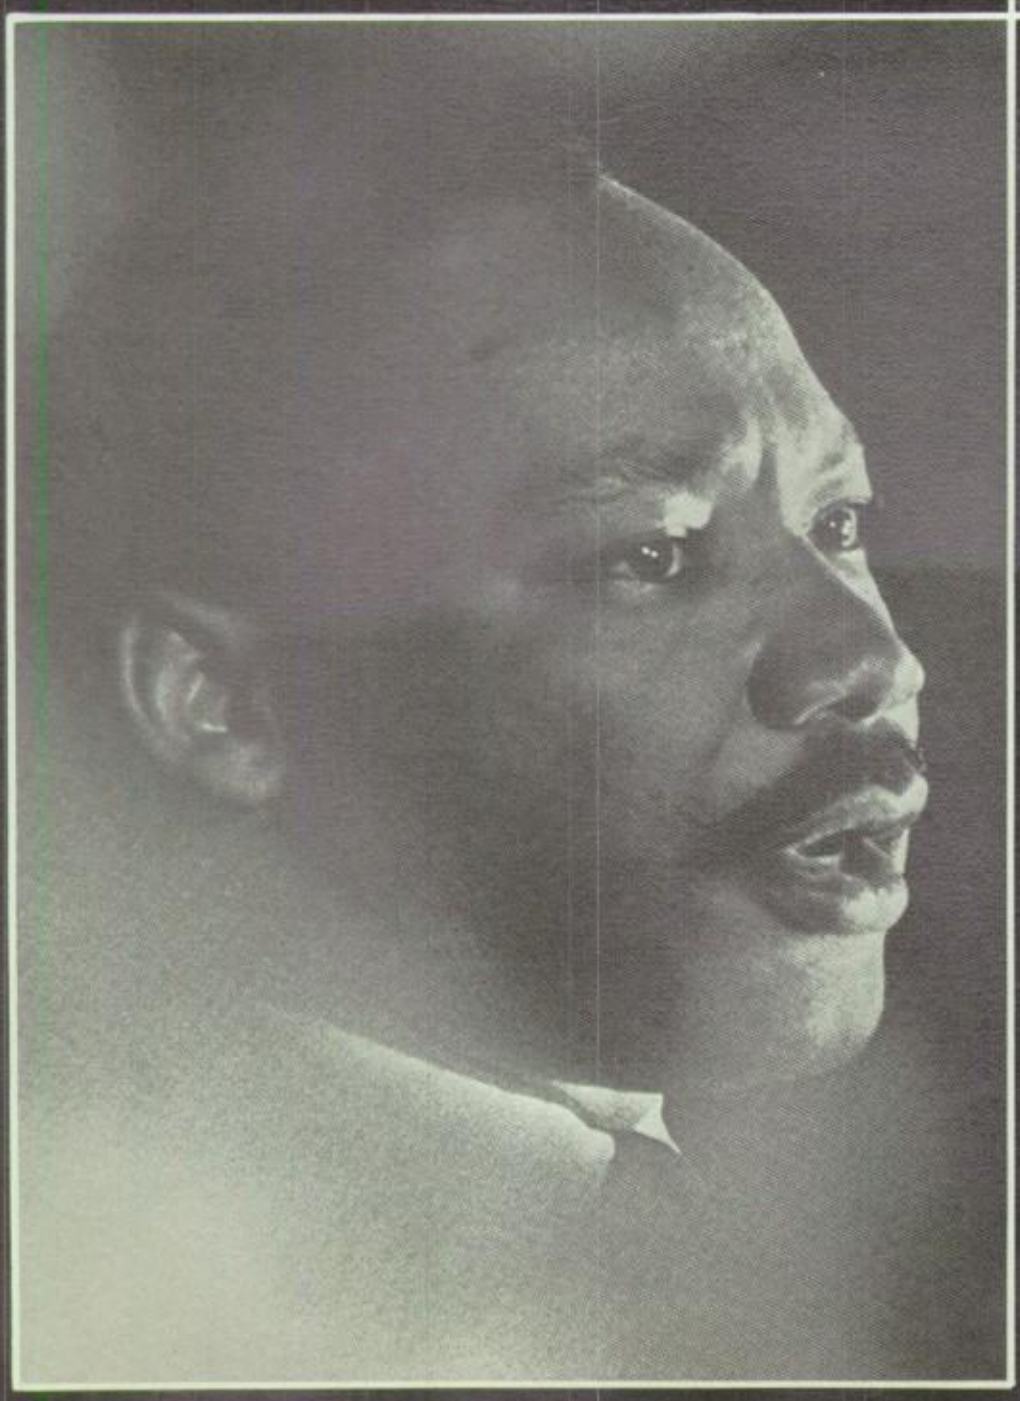


Reports on the astronauts
Landing upon the face
Of the moon, overcoming
Problems concerning the contamination
Of transmitters and computers
While thousands remain unaware
Of the technological drama
Performed for their benefit.

Gathering moon dust, determining
How the universe evolves.
Reaching into realms unknown before
We marvel at the great advances made
But realize the many obstacles
Still to overcome
Before the path to space is clear.

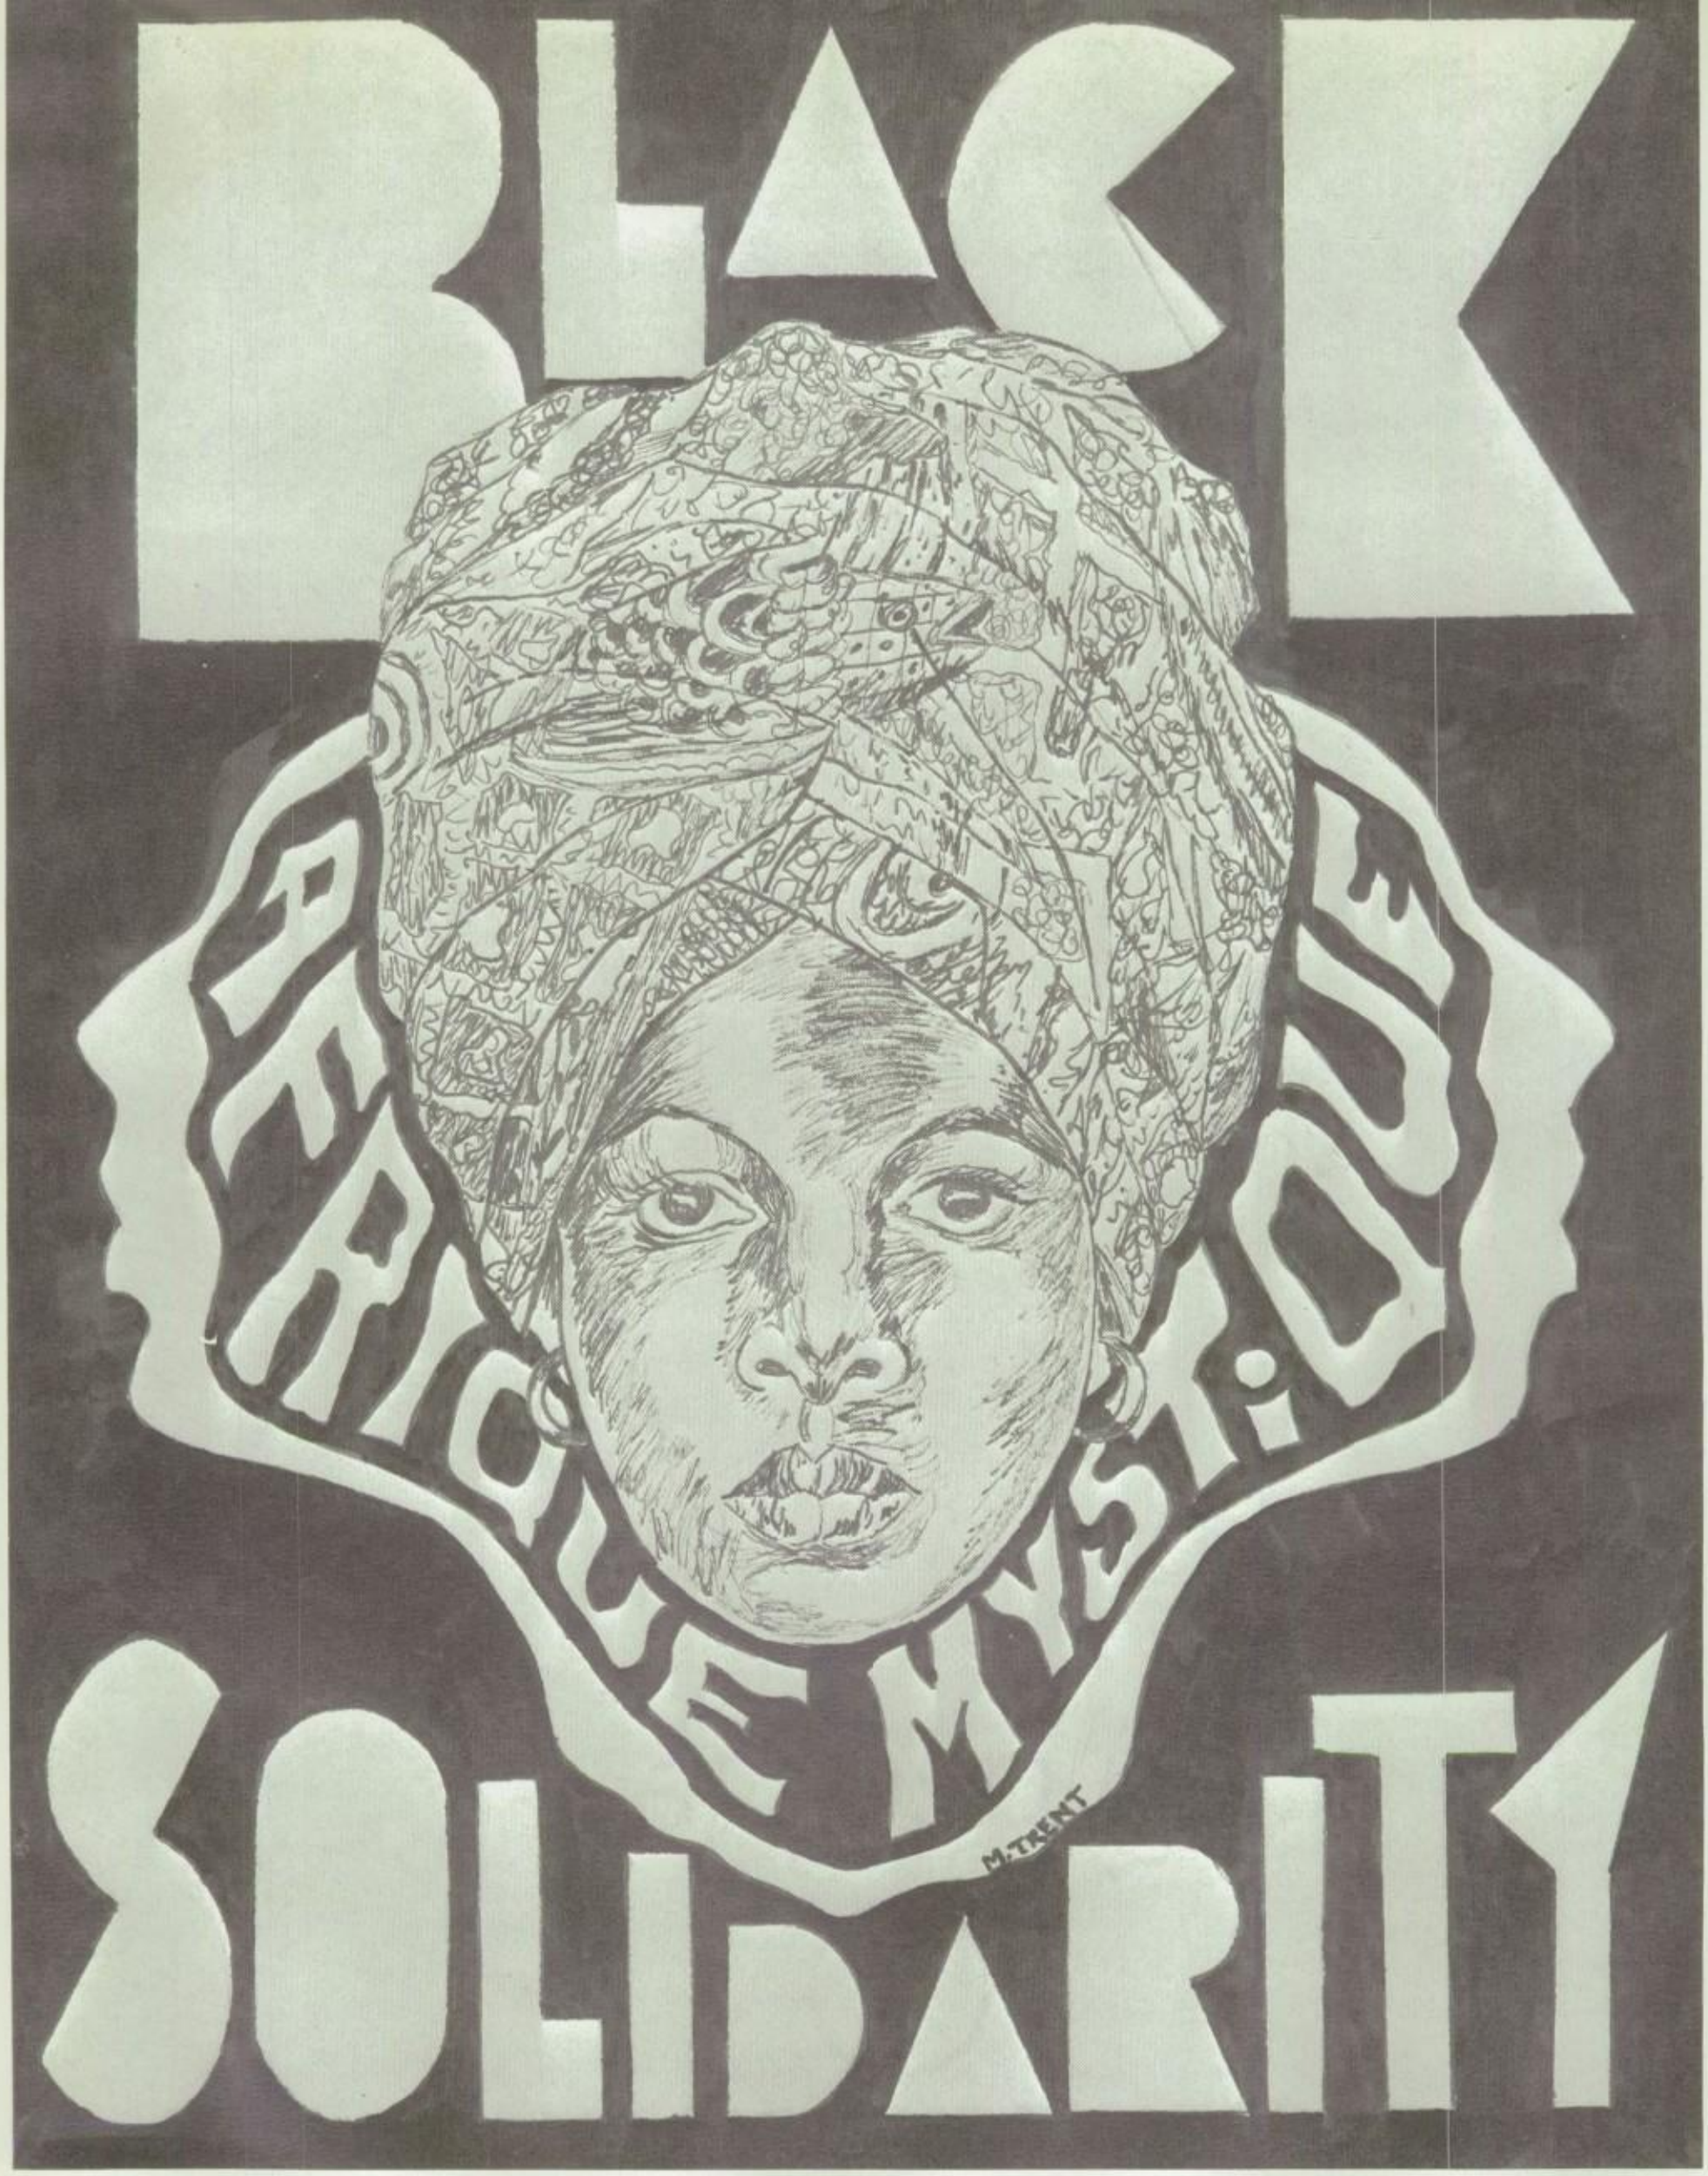
Two great Americans have given us hope and pride in ourselves. The tragic death of President John Fitzgerald Kennedy and Martin Luther King Jr. brought to all Americans a feeling of loneliness and despair, and a resolution to uphold the principles for which they lived. The torch has been passed to a new generation of young Americans born in this country, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage and unwilling to witness or permit the slow undoing of our human rights.





"And so, my fellow Americans, ask not what your country can do for you; ask what you can do for your country".

"Free at last, free at last, Thank God Almighty I'm free at last".



New World blacks drew pride from their African past. A new world rose to witness, hear, and be influenced by the rise and fall of Malcolm, death of William Burghardt Dubois, the demise of the Congo, of Ghana, of dear Langton, and of Martin Luther King.

Out of this came the contemporary search, an existential struggle for a new black beingness, for an order of life that was consistent with their racial experience.

Creative intellectuals like Imamu Ameer Baraka and Fraz Fanan led blacks away from Europe, and demanded above all, that blacks would be the keepers of their own culture. A culture that could sustain the beauty of Nina Simone and Roberta Flack; the majesty of James Brown, the expressiveness of H. Rap. Brown; the spirit of Miss Barbara Ann Teer, the courage of Bobby Seale, the pride of Angela Davis, the poetry of Nikki Giovanne and the voice of Aretha. The Negro became black and changed his relationship to white America.

SLAVE

Drugs were the thing. You look and see buttons, "Dope is death", "Speed kills" or "Turn off". Young people experimented with something they just didn't know about . . .

But out of this confusion, the young generation is finding ways to express love, peace and happiness.

The young were hip and they were sincere. They listened to the new sounds of the inner city and moved their bodies to the rhythm of "Woodstock". And they had their own music too, "computerized sounds with soul", the music of the Beatles, the late Jimi Hendrix and Janis Joplin and Sly and the Family Stone. They were learning to touch, finding non-verbal ways to say "hi". They celebrated nudity in "Hair". They wanted to end the war in Vietnam. They wanted American tribal love and their own camping grounds.

War, what is it good for? Absolutely nothing.

"If mankind does not end war,
war will end mankind".

This has not been true in the past. But it is true in the present. For the present has produced something new. It has produced science. And if science is the principal hope of mankind, it is also the principal menace. For it can create, and all that it creates is useless, if it creates only to destroy. But destruction is what war means, and all its other meanings are made meaningless by this.

HONOR SOCIETY

Under the able guidance of Mrs. Anne Russell, the Honor Society continues to uphold the integrity exemplified in its principles of character, scholarship, leadership, and service.

Snyder's chapter of the National Honor Society was organized in 1954 in honor of Emmet J. Campbell, a former Snyder principal. Volunteering at school functions and creating festive art displays are some of the activities. Fund-raising, furnishing a tutorial program at the disposal of every student, and volunteering aid to St. Joseph's School for the Blind are also activities that have made Honor Society membership a distinction.

GENERAL ORGANIZATION

The General Organization is the democratic Snyder student government which serves as a vital link between the student body and the administration.

The G.O. consists of homeroom representatives, committee chairmen and officers elected annually. This years student government, led by Sandra McCullers and advised by Mr. Hansen, has served Snyder admirably.

The meetings are held regularly throughout the school year. The various purposes are; to originate school rules and ammend existing ones, to plan school activities and to give the students an opportunity to bring valid complaints to the attention of the administration.

This year the organization sponsored a clothing drive for Appalachia, held a dance in the gym and helped to raise money for the Dr. Guterl Scholarship Fund.

Cooperation and organization were the key factors that helped this years G.O. and its committees fulfill its obligations.

Jersey Journal

Column

The Jersey Journal Column Staff, under the direction of Miss Carlotta Irving, submits the latest news. Each week, Snyder students are thoroughly informed of school events, activities and student achievements. For this diligent work the staff has received a letter of commendation from the editor of the Jersey Journal.

School Spirit

Promoting school spirit is the task of this committee. The members not only support and boost athletic teams but sell candy and make posters to advertise school functions. All profits help to contribute to a senior Athletes Dinner at the end of the year. Under the direction of Mr. Pacifico, the School Spirit Committee is one of the best known clubs in Snyder.

Mu Alpha Theta

Snyder's new math club, under the direction of Mr. Z. Jones, aids it's members in developing and expressing their ideas and understanding the concepts of mathematics.

POINT SYSTEM

The point system, under the supervision of Mr. McKinney, keeps an accurate record of student activity points. When a student accumulates a certain number of these points he is entitled to wear a bronze, silver, or gold activity key. They meet every morning in the cafeteria to assist students in keeping track of their points.

Girls and Boys State

Cathy Steffens . . . "Being a delegate to Girls State was a memorable experience. In addition to learning more about the democratic process, I had the opportunity of making many new friends during my stay at Douglass."

Leon Bassett . . . "Having been a member of the New Jersey Boys State, under different conditions and a much changed atmosphere, was a completely new experience."

Girls and Boys State, an American Legion sponsored program, is held annually at Douglass College and Rider College. It enables delegates from all New Jersey high schools to learn of the democratic structure of our state, county and local governments.

Fran Malvasi . . . "I learned so much about the most important phase of government—the people. Girls from all over the state—total strangers—had a friendly smile and hello for each other. It was an experience I'll remember

Joel Byrd . . . "My selection to New Jersey Boys State was a great honor. It was an experience which I value, and it allowed me to view an interesting part of American life first-hand."

Drama Club

The Drama Club meets every day to read and act out plays and to discuss stagecraft. This year the club did an original Christmas play called "The Office Party", for an assembly program. This active group is also trying to revive the tradition of the senior play.

Afro-American Club

There is a strong desire in the Afro-American Club to bring out two things, "Unity amongst the people", and "the appreciation of Black Culture". The club allows each person to be recognized and gives him the opportunity to express himself in the way that he knows best while seeking unity within the school. The club was honored to participate in the first annual Black Rosbury Festival of Boston College in Boston, Mass.

The 1970 football season proved the team's motto, "Excellence for the Seventies." We were fortunate enough to be able to practice at Camp ORYMCA which enabled us to enter our first game in top condition. Our record breaking season of 5 wins, 3 losses, and one tie had the highest scoring offense in Snyder's history and a very successful defense.

The combined efforts of John High and Fred Long gave us 130 points making them the second and third leading title scorers in the county. Jim Walsh, Tony DeStefano and Charles Thompson provided a necessary passcatch and air attack. Jim Charles and Willie Younger were a fine rushing combination. The driving forces were provided by our linemen, Richard Costanzo, a monmoth tackle, and Harry Chrissakis.

Last but not least, our defensive safety, Franklin Brown, allowed the opposition only 1.9 yards per rush.

All in all Snyder had one of its best seasons in many years.

The 1970-71 Snyder Basketball Team suffered a somewhat disappointing season. Academic ineligibilities to sophomore Bill Alexander and senior Marvin Evans, in addition to injuries sustained to key personnel, Larry Haynes and Steve Dorsey, caused the team to get off to a slow start.

Senior Captain Walter Douglas finished out a fine career at Snyder by again leading the team in scoring and rebounding. He also became the fourth player in Snyder's history to score 1000 points or more in a high school career.

The outlook for the future looks bright, provided the team avoids the injury of jinx. Starters Larry Haynes, Don Pritzlaff, Cornell McDaniels, Steven Dorsey, and Bill Alexander all return next year. Rolando Robinson, George Burgess, and Larry Pressley all key reserves with lots of game experience under their belts, also return.

Gary McKinnon and Steve White, both graduating seniors helped the team as spot starters and as reserves.

Girls Basketball composed of a Senior and a Junior team had a season to remember. The Senior team led by Rosiland Knight, Marilyn Moore and Paulette Kelly, just couldn't put it all together. Linda Craddock, junior, got plenty of experience in her first year of play by becoming the teams leading scorer. Next year looks much brighter with the return of many of the girls.

The Junior team consisting of sophomores and freshman won the City Championship with an undefeated record. Debra Miller the team's captain brought the girls together in a real union of sisterhood. The teams leading scorer, Janet Pressley won the title of Player of the Year. The girls are indeed number one.

Class History

Freshman Year

We entered Snyder High School as unsophisticated, bewildered freshmen, unlike an actual class but mostly as a group of individuals but all we needed was time to adjust to the new atmosphere for as the years went by we were to become the "together class of 1971."

We began to take an interest in organized sports like Football and Basketball. Our school spirit greatly increased when we found ourselves rooting for the Snyder Tigers.

Girls were permitted to wear culottes along with their poor boy sweaters and textured stockings while the boys were all getting hip to Nehru jackets and turtle necks. The "in" music was by the Temptations and the Young Rascals.

Two great tragedies occurred to sadly mar our freshman year: the untimely assassinations of Robert F. Kennedy and Dr. Martin Luther King. Both tragedies forced us to try and understand the world outside us as well as the intimate high school scene of which we were fast becoming part of.

Sophomore Year

September arrived and with it came the privilege of being able to call the new students "Freshie." We wondered how anybody could not know where the gym was? We now walked along Snyder's halls with pride and a feeling that we really belonged.

We were hit with the sudden shock of the death of our principal, Dr. Gerard Guterl and we had to adjust to Mr. Spatz (to be followed by Mr. Matthews) and a new vice-principal, Mr. Washington.

The "in dressers" were wearing wide ties, pin-striped suits, opaque stockings, chunky shoes, elephant bells and body shirts with vests all accented by scarfs and rings.

The Beatles were still one of the world's most leading and influential groups and we all listened to Sly and The Family Stone, Simon and Garfunkel and The 5th. Dimension. The peaceful rock festival in Woodstock, New York was an important event symbolizing the feeling of love and freedom of young people all over the country.

Our Football Team became city champs and most important, beat our arch rivals Lincoln High by a score of 12—0.

Junior Year

Now as Juniors we began to think more seriously about graduating and our future. We had matured into a united group and realized the necessity of working together toward common goals.

When we returned to school we had learned that the computer age had reached Snyder with computers making our schedule cards and report cards.

Also now at Snyder were the casual styles of the 70's as dungaree bell-bottoms and the tie-dyed T-shirts became acceptable attire for girls and boys under our new dress code. Every boy had longer, shaggier hair or a bolder Afro while the girls chose either shags or long hair.

We danced the tighten up and listened to Led Zepplin and enjoyed a dance at Snyder, the first in two years.

The Hong Kong Flu epidemic struck, Bormon, Lowell and Anders orbited the moon and to top it off our teachers went on strike giving us a sort of mid-winter vacation.

The Women's liberation movement had its effect on Snyder as we elected officers for the Class of 1971 under the guidance of Mr. Russo and began planning for our Senior Year.

Senior Year

The waiting was over, September was now here and we were finally seniors. We had reached our most important goal in Snyder; we had learned to accept the additional responsibilities as young adults and had come to love and trust one another.

The "in seniors" wore knickers, gauchos, midis, granny boots, chokers, and multi-colored tops. We danced to the hard rock of Grand Funk, and listened to the sweet sounds of James Taylor and realized that our minds were going through those changes.

Snyder's football season was a success thanks to all those who showed their Snyder spirit, especially the Seniors.

Our Christmas Season was really brightened by our Senior Class Semi-formal at the Holiday Inn with music provided by Soul-Unlimited. Then the days began to fly, closer and closer to prom night when everyone got together and danced to the music and got one last look at the final Senior Class function before the big day arrived, Graduation; when we all shed tears in leaving what was for four years our place of fun and learning.

Let us look ahead to the future now, in hopes of one day achieving our ultimate goals. We said our final good-byes to friends, teachers and stood in front of the statue one more time, and graduated. Going our separate ways to build new friendships, we wished everyone the best of luck in the years to come; always to cherish the memories of our high school years.
